1. INTRODUCTION

1.1 PURPOSE AND BACKGROUND

The Washington State Transportation Improvement Board hereafter called "AGENCY," is initiating this Request for Proposals (RFP) to solicit proposals from firms interested in participating on a project to:

The Transportation Improvement Board is interested in estimating and describing the impacts of its funding programs on the local economies of grant recipients, and Washington State, and to estimate and describe TIB's impact on local government finances.

Agency and Program Overview

The statutory authority for the Transportation Improvement Board is provided in the Laws of 1988, Chapter 167, RCW 47.26, and RCW 47.66. The Transportation Improvement Board is organized under provisions of RCW 47.26.121 for the purpose of implementing and administering a program of financial assistance to cities, counties, and transportation benefit districts for transportation improvement. TIB's statutory authority and powers were amended by the 1995 Legislature to include the duties of the Multimodal Board.

TIB Mission

The Transportation Improvement Board funds high priority transportation projects in communities throughout the state to enhance the movement of people, goods, and services.

The primary purpose of the TIB is to select and administer grants for transportation projects that best address the program criteria established by the Board. These programs are funded by the Legislature as the state's financial commitment for specific types of roadway improvements. Board members who represent the interests of local agency customers develop the policies guiding the programs.

Urban Arterial Trust Account - Established by the Legislature in 1967 to provide funding for projects on Washington's urban arterial roads and streets. RCW 47.26.080 authorizes the creation of the Urban Arterial Trust Account.

- **Arterial Improvement Program (AIP)** - The intent of the Arterial Improvement Program is to improve the urban arterial street system of the state by improving mobility and safety while supporting an environment essential to the quality of life for the citizens of the state of Washington. Projects shall consider safety, mobility, and physical characteristics of the roadway and must be partially funded by local government.
- **Small City Program (SCP)** - Established by the legislature in 1994 with the intent of preserving and improving the roadway systems consistent with local needs of incorporated cities and towns with a population of less than five thousand. RCW 47.26.115 authorizes the creation of the Small City Program.
- **City Hardship Assistance Program (CHAP)** - Established by the legislature in 1991 to offset costs for state highways transferred to cities with a population of 20,000 or less. RCW 47.26.164 authorizes the creation of the City Hardship Assistance Program.
- **Pedestrian Safety and Mobility Program (PSMP)** - The intent of the Pedestrian Safety & Mobility Program is to enhance and promote pedestrian safety and mobility as a viable transportation choice by providing funding for pedestrian projects that improve safety, provide access and address system continuity and connectivity of pedestrian facilities.

Transportation Improvement Account - Established by the legislature in 1988 with the intent to improve the mobility of people and goods in Washington State by supporting economic development and environmentally responsive solutions to our statewide transportation needs. RCW 47.26.086 authorizes the creation of the Transportation Improvement Account.

- Transportation Partnership Program (TPP) - Projects must be attributable to congestion caused by economic development or growth, consistent with state, regional, and local transportation plans and partially funded by local contributions.

1.2 OBJECTIVE

The final report will estimate the effects of the TIB's funding programs on Washington's economy. This includes impacts on employment and the economic development generated through TIB's programs. A final report will be developed that isolates the economic impacts of the funding programs and makes recommendations on how the programs can be modified to increase their economic impact.

In the event additional funding becomes available, any contract awarded may be renegotiated to provide for additional related services.

Participation may be either on a direct basis in response to this solicitation or on a subcontractor basis. However, no preference will be included in the evaluation of proposals, no minimum level of MWBE participation shall be required as a condition for receiving an award, and proposals will not be rejected or considered non-responsive on that basis. Any affirmative action requirements set forth in federal regulations or statutes included or referenced in the contract documents will apply.

The established annual procurement participation goals for MBE are 10 percent and for WBE, 4 percent, for this type of project. These goals are voluntary. Bidders may contact OMWBE at 360/753-9693 to obtain information on certified firms.

The AGENCY also reserves the right, however, at its sole discretion to waive minor administrative irregularities.

2.9 MOST FAVORABLE TERMS

The AGENCY reserves the right to make an award without further discussion of the proposal submitted. Therefore, the proposal should be submitted initially on the most favorable terms that the Consultant can propose. There will be no best and final offer procedure. The AGENCY does reserve the right to contact a Consultant for clarification of its proposal during the evaluation process. In addition, if the Consultant is selected as the apparent successful contractor, the AGENCY reserves the right to enter into contract negotiations with the apparent successful contractor, which may include discussion regarding the terms of the proposal. Contract negotiations may result in incorporation of some or all of the Consultant's proposal. The Consultant should be prepared to accept this RFP for incorporation into a contract resulting from this RFP. It is also understood that the proposal will become part of the official procurement file.

Consultants protesting this procurement shall follow the procedures described below. Protests that do not follow these procedures shall not be considered. This protest procedure constitutes the sole administrative remedy available to Consultants under this procurement.

All protests must be in writing and signed by the protesting party or an authorized Agent. The protest must state the grounds for the protest with specific facts and complete statements of the action(s) being protested. A description of the relief or corrective action being requested should also be included. All protests shall be addressed to the RFP Coordinator.

Only protests stipulating an issue of fact concerning the following subjects shall be considered:

- A matter of bias, discrimination or conflict of interest on the part of the evaluator.
- Errors in computing the score.
- Non-compliance with procedures described in the procurement document or AGENCY policy.

Protests not based on procedural matters will not be considered. Protests will be rejected as without merit if they address issues such as: 1) an evaluator's professional judgment on the quality of a proposal, or 2) AGENCY'S assessment of its own and/or other agencies needs or requirements.

Upon receipt of a protest, a protest review will be held by the AGENCY. The AGENCY director or an employee delegated by the Director who was not involved in the procurement will consider the record and all available facts and issue a decision within five business days of receipt of the protest. If additional time is required, the protesting party will be notified of the delay.

In the event a protest may affect the interest of another Consultant that submitted a proposal, such Consultant will be given an opportunity to submit its views and any relevant information on the protest to the RFP Coordinator.

The final determination of the protest shall:

- Find the protest lacking in merit and uphold the AGENCY's action; or
- Find only technical or harmless errors in the AGENCY's acquisition process and determine the AGENCY to be in substantial compliance and reject the protest; or
- Find merit in the protest and provide the AGENCY options which may include:
 - Correct the errors and re-evaluate all proposals, and/or
 - Reissue the solicitation document and begin a new process, or
 - Make other findings and determine other courses of action as appropriate.

If the AGENCY determines that the protest is without merit, the AGENCY will enter into a contract with the apparently successful contractor. If the protest is determined to have merit, one of the alternatives noted in the preceding paragraph will be taken.
